How to use the logo

You must acknowledge your grant by placing notice of the award on any website or newsletter associated with your organisation. A Listed Places of Worship: Roof Repair Fund logo is available to download from www.lpowroof.org.uk for this purpose.

The acknowledgement logo comes in two versions: colour and black & white. They are both made up of the Listed Places of Worship Roof Repair Fund triangle roof graphic.

Please use the logos exactly as they appear, taking note of the guidance below.

Minimum sizes
The minimum width of the logo is 30mm.

The width of the logo should be proportionate to the height, and the logo should not appear distorted.

The size at which the logo is used must be proportionate to the size of the materials you are producing, to make sure it's clear and easy to read. For example:

A5
30mm in height

A4
36mm in height

A3
46mm in height

A2
58mm in height and so on.

Colour
Please try to use the logo in full colour if you can. Alternatively, you can use it in black and white on a light background.

Please don't use the logo in any other colour.

Exclusion zone
We have defined an exclusion zone to protect the logo from other graphic elements such as type, image boxes or lines. Leave clear space the height of the 'R' in 'Roof', on all sides of the logo.

Dual acknowledgement
If you need to show that other organisations are associated with your project, please try to include all logos at approximately the same size and in line with one other – making sure that you adhere to the exclusion zone rules above.

If you need to show the logos of your funders in a list and the Listed Places of Worship Roof Repair Fund was the greatest contribution, this logo should appear at the top.

Logo misuse

Please don't redraw or alter the logo. Don't stretch or cut it up (crop it) to fit into a small space. For example, if dropping a logo into a Word document, please resize it by clicking on and dragging the corners and not the sides of the logo box.
